**TABLE OF CONTENTS**

RADIOLOGY PRIVILEGING PROGRAM OVERVIEW ..... 547

    GHI and EmblemHealth EPO/PPO Radiology Privileging by Specialty ..... 547

    Vytra Radiology Privileging by Specialty ..... 552

In this chapter you will find radiology privileging protocols to improve quality of care and make imaging services available when rendered by physicians other than radiologists.

## RADIOLOGY PRIVILEGING PROGRAM OVERVIEW

There are many clinical reasons physicians other than radiologists must perform in-office imaging as part of their diagnostic and treatment plans. We have radiology privileging protocols to make imaging services available when rendered by physicians other than radiologists.

This chapter includes the lists of procedures and associated CPT-4 codes that network physicians other than radiologists can perform for specific benefit plans based on their specialty and network participation.

This program applies to members with the following benefit plans and to practitioners who service these members:

- EmblemHealth EPO/PPO
- GHI
- Vytra

**Note:** GHI HMO members and practitioners are not eligible for this program. Protocols for HIP, EmblemHealth CompreHealth EPO and EmblemHealth Medicare HMO appear in the **HIP Outpatient Diagnostic Imaging Self-Referral Payment Policy** chapter.

For physicians to perform radiological procedures within their specialty, they must have the appropriate certifications or accreditations, as noted in the **Radiology Privileging by Specialty** charts in this chapter. Certain procedures require prior approval. When radiological procedures are performed outside the physician's specialty or when appropriate prior approval is not obtained, claims for such services will be denied, with no liability to the member.

The charts below detail the inpatient, outpatient and office-based radiology services for which reimbursement will be made when performed by physicians other than radiologists.

- **GHI and EmblemHealth EPO/PPO Practitioners**
- **Vytra Practitioners**

### GHI and EmblemHealth EPO/PPO Radiology Privileging by Specialty

GHI AND EMBLEMHEALTH EPO/PPO RADIOLOGY PRIVILEGING BY SPECIALTY
