EmblemHealth is requesting premium rate changes for certain plans. Your premium is the amount you pay each month for insurance. As you know, the cost of hospital stays, prescription drugs, and other health services continues to go up. Each of these costs drive premiums. We want to assure you that we are mindful of the impact changes in premiums can have on you and your family, and we are taking every step to ensure that you have access to affordable, high-quality coverage.

EmblemHealth's individual and family Select Care plans serve over 40 subscribers and 50 members. We have looked carefully at how medical costs are escalating and have submitted the below rate changes to the New York State Department of Financial Services (DFS). DFS will decide if the rate changes are appropriate.

Why do we need to change premiums?

We change premiums due to the rise in the cost of medical care, including the costs of hospital stays, prescription drugs, and other health services. Most of your premium goes toward paying for medical and pharmacy claims for members. In fact, New York State requires that at least 82% of the premium you pay directly covers member medical costs. As the cost and use of

pharmacy drugs and medical services go up, so does the cost of medical care we must pay for. We expect that medical and pharmacy costs will continue to go up, on average, by 11.2% in 2026 and 2027.

Will all plans have the same premium change?

No, your premium will change based on your plan.

When will premiums change?

Your premium will change on your renewal date of **Jan. 1, 2027**. EmblemHealth will send you a notice before your renewal date to let you know how much your premium is increasing.

Are these rates final?

No, these rates are not final. Your final renewal rate may be different from the proposed changes shown above. DFS may approve, modify, or deny the adjustment. EmblemHealth will notify you of your final, approved rate at least 60 days before your renewal date.
