

# Welcome to Your EmblemHealth Dental Benefits

We're happy to offer you and your family quality dental care through EmblemHealth's Silver Value Plan. Our goal is to give you access to high quality, low cost care.

As a member of EmblemHealth's Silver Value health plan, you will:

- Be covered for preventive services like cleanings, cleanings, sealants, and space maintainers.
- Be covered for basic services through our network for dental examinations, visits, consultations, and X-rays based on your dental benefits.
- Be able to cover your children until they turn 26.

## IN-NETWORK COVERAGE

You will be able to choose from our in-network dentists and specialists in New York State. Simply show your EmblemHealth medical ID card at your dental visit. You do not have out-of-network coverage. If you choose to visit an out-of-network dentist, you will be responsible for the cost.

## YOUR DENTAL BENEFITS

Here are some important things to know about your benefits:

- There is no deductible for your dental care. A deductible is the amount you must pay each year before EmblemHealth starts to pay.
- Your out-of-pocket maximum, the maximum amount you will have to pay each plan year for dental care, is combined with your medical out of pocket maximum. You can find this information in your subscriber certificate.
- A child is any member under 19 years old. After the month your child turns 19, they can be covered until they turn 26 years old. You can see the difference in coverage in the chart below.
- You do not have out-of-network coverage. This means that you or your child must see an in-network dentist or specialist or you will be responsible for the cost.
