## Help your child get the most from their pharmacy benefits

Your child may need medicine for a very short time to treat something like an infection. Or they may need medicine for a longer time to treat a condition like diabetes. Either way, we're focused on delivering an easy experience and helping your child have better health.

## How your child's pharmacy benefits work

Visit PrimeCentral™ to check the list of medicines covered under your child's pharmacy benefits (called a formulary). Doctors and pharmacists have carefully selected the generic and brand-name drugs on the list. Drugs that aren't on this list may cost you more.

## Take full advantage of PrimeCentral

PrimeCentral is your one-stop shop for managing your child's pharmacy benefit. You can access PrimeCentral through the myEmblemHealth member portal.

All you need to register on PrimeCentral is your child's member ID card and a few clicks. Once you've registered, you can see your child's benefits and access tools to:

### Find medicines

Look up different drugs to see if your child's plan covers them. If their medicine isn't covered, talk to their doctor. They may be able to switch to a medicine that's on the drug list.

### Find pharmacies

Use PrimeCentral to find a pharmacy that works for you and your child. You can search by pharmacy name, location and more.

### View prescription history

See your child's prescription drug claims history, including medicine and fill date. You can also easily print your child's history for their doctor to review.

PrimeCentral is designed to work on your computer, tablet or phone — wherever and whenever you need it.

**Call the number on your child's member ID card.**
