Definition

Medical Nutrition Therapy involves the assessment of an individual's overall nutritional status followed by an individualized course of treatment to prevent or treat medical illness. Nutritional counseling considers many factors including a person's food intake, physical activity, course of any medical therapy including medications and other treatments, and individual preferences.

Guideline

Members are eligible for nutritional counseling as a necessary therapeutic component in disease management when dietary strategy and intervention are known to positively impact clinical outcomes.

Conditions amenable to dietary intervention are listed in the [Applicable Diagnosis Codes](#) section below.

Utilization

A. Parameters for diabetes self-management training (DSMT)

- a. Initial training — provided only once (10 hours total within 12-month period) consisting of:
 - i. 9 hours within a group of 2–20 participants
 - ii. 1 hour of individual training to assess member-needs
 - iii. Each class \geq ½ hour
- b. Follow-up Training — \leq 2 hours of individual or group training per year (each class \geq ½ hour) — group may be 2–20 people and either:
 - i. Furnished in the calendar year post IT year
 - ii. Furnished when ordered (even in the absence of documentation that IT has been received)
- c. Group participation exception — training may be individual if:
 - i. No group training is available within 2 months of order
 - ii. The provider documents that member's special needs (e.g., severe hearing, language or vision limitations) will hinder effective group participation

B. Parameters for medical nutrition therapy (MNT)

- a. Initial assessment visit
- b. Follow-up intervention visits
- c. Reassessments as necessary during 12-month episode of care to assure compliance with dietary plan.

Limitations/Exclusions

1. Nutritional counseling is not considered medically necessary for any of the following:
 - a. Conditions unrelated to dietary management (e.g., attention deficit disorders, asthma, chronic fatigue syndrome, etc. [list not all inclusive])
 - b. General educational purposes
2. Services must be prescribed by a physician and furnished by a provider credentialed by plan.
3. Use of an online electronic-structured intensive program for behavior change (CPT 0488T) is not considered medically necessary.
