#### **Medical Guideline Disclaimer**

Property of EmblemHealth. All rights reserved. The treating physician or primary care provider must submit to EmblemHealth the clinical evidence that the patient meets the criteria for the treatment or surgical procedure. Without this documentation and information, EmblemHealth will not be able to properly review the request for prior authorization. The clinical review criteria expressed below reflects how EmblemHealth determines whether certain services or supplies are medically necessary. EmblemHealth established the clinical review criteria based upon a review of currently available clinical information (including clinical outcome studies in the peer reviewed published medical literature, regulatory status of the technology, evidence-based guidelines of public health and health research agencies, evidence-based guidelines and positions of leading national health professional organizations, views of physicians practicing in relevant clinical areas, and other relevant factors). EmblemHealth expressly reserves the right to revise these conclusions as clinical information changes and welcomes further relevant information. Each benefit program defines which services are covered. The conclusion that a particular service or supply is medically necessary does not constitute a representation or warranty that this service or supply is covered and/or paid for by EmblemHealth, as some programs exclude coverage for services (CMS) for Medicare and Medicaid members. All coding and web site links are accurate at time of publication. EmblemHealth Services Company LLC, ("EmblemHealth") has adopted the herein policy in providing management, administrative and other services to EmblemHealth Plan, Inc., EmblemHealth Insurance Company, EmblemHealth Services Company, LLC and Health Insurance Plan of Greater New York (HIP) related to health benefit plans offered by these entities. All of the aforementioned entities are affiliated companies under common control of EmblemHealth Inc.

#### Definitions

**Prosthetics**: Appliances or devices that are used for the purpose of supporting a weak or deformed body part, or to restrict or eliminate motion in a diseased body or injured part of the body.

**Prosthetic shoe**: A device used when all or a substantial portion of the front part of the foot is missing. The function of the prosthetic shoe is quite distinct from that of the excluded orthopedic shoe and supportive foot devices, which are used by individuals whose feet, although impaired, are essentially intact.

**Prescribing physician**: Writes the order for the therapeutic shoe, modification or insert. The prescribing physician must be a DPM, MD or DO, and may also be the supplier.

**Certifying physician**: Provides the medical care for the beneficiary's condition and must be an MD or a DO but **not** a DPM. The certifying physician may only be the supplier if the patient is residing in a defined rural area or a defined health professional shortage area.

**Supplier**: Actually furnishes the shoe, modification or insert to the beneficiary and bills the Plan. The supplier must be a DPM, pedorthist, orthotist, prosthetist, or other qualified individual.

#### Guideline

Prosthetic shoes (including inserts and other modifications) are considered medically necessary DME when either of the following criteria is met:

- The shoe is an integral part of a prosthesis for a partially amputated foot.
- The shoe is medically necessary for the proper functioning of a covered leg brace. (Prerequisite not applicable to Medicaid members effective April 1, 2011)

(Note: Covered shoes for this guideline include high top, depth inlay or custom-made shoes for non diabetics, etc.; shoes for diabetics may be found in MCG #A-0875, Therapeutic Diabetic Shoes, or Local Coverage Determination [LCD] Therapeutic Shoes for Persons with Diabetes, for Medicare members)

### Limitations/Exclusions

The following items are not considered medically necessary:

- A matching shoe for a member with a leg brace, as it is not attached to the brace.
- Shoes placed over a partial foot prosthesis or other lower extremity prosthesis that is attached to the residual limb by other mechanisms.
- Modifications, inserts and heel or sole replacements for noncovered shoes, which do not meet the criteria put forth in this guideline.

Prior approval for customized DME prosthetic and orthotic supplies is required. In order to obtain prior approval, the Plan must be in receipt of an order for the shoes, inserts or modifications that has been signed by the prescribing physician. The supplier must keep the order on file. If the prescribing physician is the supplier, a separate order is not required; however, the item provided must be clearly noted in the member's record. A new order is not required for replacement of an insert or modification within 1 year of the order on file. If the time frame exceeds 1 year, a new order is required. The supplier's records should document the reason for the replacement.
