

2025 Quality Supplemental Data Training

EmblemHealth®

Supplemental Data Overview

Supplemental data is additional clinical data about a member.

Allows providers to supplement additional information beyond administrative claims based on the care provided.

Simple data feeds from your electronic health record (EHR)/electronic medical record (EMR) can help improve quality scores.

All supplemental data is subject to the review and approval of the plan's certified Healthcare Effectiveness Data and Information Set (HEDIS[®]) auditor.

Types of Supplemental Data

Standard

Aggregated member data from a provider's electronic health record (EHR)/electronic medical record (EMR) system in a required format.

Non-standard

All other data which requires physical inspection. For example, member charts, clinical summaries.

May be submitted as proof of historical services, or services rendered by partnering or specialty providers only, to supplement compliance outside of claims and the standard supplemental file.

Medical Record Access/Supplemental Data Exchange

We encourage providers to share supplemental data to ensure we capture all needed information regarding their patients.

Supplemental Data Type	Due Date	Submission	File Labeling	Template
Standard – first file	Dec. 26, 2025	quality_data@emblemhealth.com and copy relationship manager.	Label file: Standard File_Provider Collaborative Name_Date of Submission	 Standard Template
Standard – other files (as long as first file received by Dec. 27, 2025)	Feb. 27, 2026			
Non-standard (only to supplement claims and the standard file) Note: All medical records must include member's name and date of birth. Records must be PDF. Please include full medical record for that date of service.	Dec. 26, 2025*	HEDISgroup@emblemhealth.com and copy relationship manager.	Label file: NonStandard File_Provider Collaborative Name_Date of Submission Label records: Provider Collaborative Name_MemberID_Measure.	 NonStandard Template

*Records only accepted starting March 31, 2025, for measurement year 2025. Resubmitted or corrected records will not be accepted for files sent after Dec. 19, 2025.

Questions

- Contact your provider network relationship manager.
- You may also email **`quality_providerengagement@emblemhealth.com`**.

Measure Restrictions

There are certain measures for which the plan can't accept supplemental data in measurement year 2025.

The plan is no longer accepting non-standard supplemental charts for **A1C and blood pressure**. Only standard data will be accepted for these measures. See spreadsheet below for all measure restrictions.

We have further aligned with NCQA to better leverage the capture of data electronically, rather than paper charts, to support efficiency of quality reporting.

Thank you!
