

# EmblemHealth Pharmacy Benefit Services 2020 Large Group Formulary Summary

(Effective January 1, 2020)

This is a list of the preferred drugs prescribed most often to members in your plan. It is a short version of the drug list that makes up your prescription drug benefit plan. Talk to your doctor about prescribing generic drugs when it's possible. By doing this, you may save money.

**NOTE:** Brand-name drugs may come off this list if a generic version comes on the market during the year. Check your benefits to see which drugs we pay for and your copays. A copay is the amount you pay for health services or prescriptions. If you have questions, please call the phone number on the back of your ID card. You can find a key to this list on the last page.
