Rx90i (Maintenance with Insulin) Drug List by Category

Effective January 1, 2027

As part of your benefit package, you may be required to fill prescriptions for maintenance (long-term) medicines at certain pharmacies, such as Prime's mail-service pharmacy or an extended supply network pharmacy. This benefit provides savings on many medicines you take over a long period of time.

Commonly used medicines included in this benefit are listed below and grouped into broad categories. Please note, due to the large number of available medicines, this list may not be all inclusive. Some strengths and/or formulations may not be covered. Oral contraceptives are a part of this list and are included in the benefit. **Please refer to your benefit materials for coverage details and the plan website for current information as this list will be reviewed periodically and is subject to change.**

Generic prescription drugs are shown in lower-case boldface type. Most generic drugs are followed by a reference brand drug in (parentheses). Reference brands may not themselves be covered, please check your benefit. Some generic products have no reference brand. Brand prescription drugs are shown in all capital letters followed by the generic name. Generic medicines are available for many of the brand-name drugs listed though may not be available in all strengths.
