

HIP Healthy NY HMO Health Plan

QUICK START GUIDE TO YOUR BENEFITS

The Most Important Things You Need to Know

As an EmblemHealth member in the HIP Healthy NY HMO Plan, you must choose a primary care physician (PCP) from the Premium network. Your PCP will provide or coordinate all of your care, including referrals to network specialists. If you don't select a PCP within 90 days of joining the plan, we will assign one to you based on your home zip code. You may change your PCP at any time, for any reason..

How to Select or Change Your PCP

1. Visit **www.emblemhealth.com** and register on-line. (Read how on the back this page.)
2. Once you register and sign in, click on *Find a Doctor*.
3. Fill in the search criteria and then click on *Start Search*.
4. From the list of doctors that appears, click on a doctor's name. This will take you to a page that tells you more about that doctor. Check out a few profiles until you find a doctor who best meets your needs.

Keep in mind:

- By using our Web site directory, you'll always get the most current information about providers in the Premium Network. That includes primary care doctors, specialists, hospitals, laboratories and other care facilities.
- If you need help finding a doctor near you, just call us at **1-800-447-8255** (TDD: 1-888-447-4833).

Use Quest Diagnostics for Lab Work

You can also help lower your out-of-pocket costs by using Quest Diagnostics, our preferred laboratory provider, for lab work. Since the HIP Healthy NY HMO Plan does not offer out-of-network benefits, please remind your doctor to use Quest when you need a lab test. Quest is a national laboratory that covers much of our service area. How easy is it to schedule a lab test? Just sign on to **www.questdiagnostics.com/appointment** and make an appointment. Or, call **1-888-277-8772** and use Quest's automated phone system. Don't have an appointment? Walk-ins are always welcome.
