

## Medical Policy:

### Onapgo (apomorphine), subcutaneous injection

POLICY NUMBER	LAST REVIEW	ORIGIN DATE
MG.MM.PH.436	April 30, 2025	April 30, 2025

#### Medical Guideline Disclaimer Property of EmblemHealth. All rights reserved.

The treating physician or primary care provider must submit to EmblemHealth, or ConnectiCare, as applicable (hereinafter jointly referred to as "EmblemHealth"), the clinical evidence that the member meets the criteria for the treatment or surgical procedure. Without this documentation and information, EmblemHealth will not be able to properly review the request preauthorization or post-payment review. The clinical review criteria expressed below reflects how EmblemHealth determines whether certain services or supplies are medically necessary. This clinical policy is not intended to pre-empt the judgment of the reviewing medical director or dictate to health care providers how to practice medicine. Health care providers are expected to exercise their medical judgment in rendering appropriate care. Health care providers are expected to exercise their medical judgment in rendering appropriate care.

EmblemHealth established the clinical review criteria based upon a review of currently available clinical information (including clinical outcome studies in the peer reviewed published medical literature, regulatory status of the technology, evidence-based guidelines of public health and health research agencies, evidence-based guidelines and positions of leading national health professional organizations, views of physicians practicing in relevant clinical areas, and other relevant factors). EmblemHealth expressly reserves the right to revise these conclusions as clinical information changes and welcomes further relevant information. Each benefit program defines which services are covered. The conclusion that a particular service or supply is medically necessary does not constitute a representation or warranty that this service or supply is covered and/or paid for by EmblemHealth, as some programs exclude coverage for services or supplies that EmblemHealth considers medically necessary.

If there is a discrepancy between this guideline and a member's benefits program, the benefits program will govern. Identification of selected brand names of devices, tests and procedures in a medical coverage policy is for reference only and is not an endorsement of any one device, test or procedure over another. In addition, coverage may be mandated by applicable legal requirements of a state, the Federal Government or the Centers for Medicare & Medicaid Services (CMS) for Medicare and Medicaid members. All coding and web site links are accurate at time of publication.

EmblemHealth may also use tools developed by third parties, such as the MCG™ Care Guidelines, to assist us in administering health benefits. The MCG™ Care Guidelines are intended to be used in connection with the independent professional medical judgment of a qualified health care provider and do not constitute the practice of medicine or medical advice. EmblemHealth Services Company, LLC, has adopted this policy in providing management, administrative and other services to EmblemHealth Plan, Inc., EmblemHealth Insurance Company, EmblemHealth Services Company, LLC, and Health Insurance Plan of Greater New York (HIP) related to health benefit plans offered by these entities. ConnectiCare, an EmblemHealth company, has also adopted this policy. All of the aforementioned entities are affiliated companies under common control of EmblemHealth Inc.

## Definitions

Onapgo is indicated for the treatment of motor fluctuations in adults with advanced Parkinson's disease.

## Length of Authorization

Coverage will be provided for 12 months

## Dosing Limits [Medical Benefit]

(98 mg per 20 mL with Onapgo pump): Initial: 1 mg/hour; adjust dose based on response and tolerability in 0.5 to 1 mg/hour increments at intervals  $\geq 1$  day up to a maximum continuous dosage of 6 mg/hour. Maximum total daily dose (including continuous infusion and extra doses): 98 mg/day administered over the waking day (eg, 16 hours).

## Guideline

### 1. Diagnosis of idiopathic, advanced Parkinson's Disease (PD)

- Prescribed by, or in consultation with, a neurologist; **AND**
- Physician attestation or documentation that the patient is experiencing persistent motor fluctuations despite

- optimized carbidopa/levodopa (CD/LD) therapy (including a minimum of 3 hours of “off” time per day); **AND**
- C. Patient is  $\geq 30$  years of age; **AND**
- D. Patient’s PD is Levodopa (LD)-responsive with clearly defined “on” periods; **AND**
- E. Patient is experiencing unsatisfactory motor control despite optimized treatment with available therapies (including a stable regimen of daily Levodopa (LD)-based therapy) and at least **ONE** of the following:
- i. COMT inhibitor (e.g. entacapone, opicapone)
  - ii. MAO-B inhibitor (e.g. rasagiline, selegiline, safinamide)
  - iii. Dopamine agonists (e.g. pramipexole, ropinirole)
  - iv. Amantadine

## Applicable Procedure Codes

Code	Description
C9399	Unclassified drugs or biologicals
J3490	Unclassified drugs

## Applicable NDCs

Code	Description
27505-0006-xx	Onapgo 98mg/20mL

## ICD-10 Diagnoses

Code	Description
G20.A2	Parkinson's disease without dyskinesia, with fluctuations
G20.B2	Parkinson's disease with dyskinesia, with fluctuations

## Revision History

Company(ies)	DATE	REVISION
EmblemHealth & ConnectiCare	04/30/2025	New Policy
