

Welcome to Your EmblemHealth Dental Benefits

We're happy to offer you and your family quality dental care through EmblemHealth's Gold Healthy NY Plan. Our goal is to give you access to high quality, low cost care.

As a member of EmblemHealth's Gold Healthy NY health plan, your child will:

- Be covered for preventive services like cleanings, X-rays, and exams.
- Be covered for basic services through our network for fillings, root canals, extractions, and periodontal care based on your dental benefits.
- Be covered until the month they turn 19.

IN-NETWORK COVERAGE

You will be able to choose from our in-network dentists and specialists in New York State. Simply show your child's EmblemHealth member ID card at your dental visit. You do not have out-of-network coverage. If you choose to visit an out-of-network dentist, you will be responsible for the cost.

YOUR DENTAL BENEFITS

Here are some important things to know about your benefits:

- There may be a deductible. A deductible is the amount you must pay each year before EmblemHealth starts to pay. You can find more information in the table below.
- Your out-of-pocket maximum, the maximum amount you will have to pay each plan year for dental care, is listed in the table below.
- A child is any member under 19 years old. After your child turns 19, they may be eligible for dental coverage as an adult if your plan has adult dental benefits. This benefit is a pediatric benefit and can only cover children.
- You do not have out-of-network coverage. This means that your child must see an in-network dentist or specialist or you will be responsible for the cost.
