

## 2013 Quantity Level Limits (QLL) Criteria

Certain drugs covered through your EmblemHealth Medicare PDP Medicare Plan are covered for only a limited quantity. We do this to ensure compliance with the US Food and Drug Administration and manufacturer dosing recommendations.

For example, Januvia 50mg is covered up to 30 tablets for a 30-day period. If your physician feels it is medically necessary for you to receive more than 30 tablets over a 30-day period, he or she must ask for an exception to the quantity limit. Doctors must secure prior approval before a higher quantity will be covered.

This list includes drugs that have quantity limits. To see if your drug is on the list, refer to the table of contents below for the quantity limit criteria you are looking for, or refer to the index located at the end of this document for the medication you are looking for.
