

2009 NYSDOH AIDS Institute Resource Directory

Introduction

This resource directory is intended for use by individuals seeking HIV/AIDS services. Included in this directory is a list of organizations funded by the New York State Department of Health AIDS Institute to provide HIV/AIDS services. Some organizations may provide additional HIV/AIDS services through other funding sources. The AIDS Institute is currently in the process of re-procuring a significant amount of state/federal funding and will produce another directory in 2010 as new contracts are awarded.

This directory is arranged by region, with each organization listed under the region it serves and then by the service it provides. Individuals using this directory should call agencies directly for more detailed information about the complete range of services offered. The organizations listed in a specific location may also provide services to people who live in neighboring communities and boroughs. Please call organizations directly for complete information about services.

NYC Providers:

- Bronx
- Brooklyn
- Manhattan
- Queens
- Staten Island
- Citywide

Outside of NYS Providers:

- Central NY
- Finger Lakes
- Hudson Valley
