

HIP HMO PREVENTIVE DENTAL

Tend To Your Oral Health Without Spending a Lot

At EmblemHealth we know that your “whole health” means your teeth need to be healthy, too. So we’ve negotiated reduced rates with dentists and dental specialists for preventive dental benefits in your HMO plan. You can rest easy knowing you’re getting the preventive care you need to keep your teeth and gums healthy.

BIG SAVINGS ON ROUTINE DENTAL CARE

\$15 In-network exam and cleaning in New York

\$5 Fluoride treatment

You will also benefit from reduced fees for other services such as: **X-rays, fillings, crowns and dentures.** A list of common procedures and the maximum amount you can be charged for each procedure can be found in your HIP Preventive Dental Directory.

Note: An exam is needed prior to cleaning. Participating dentists may require members to have a full mouth series of X-rays on file in order to establish their care as patients. Frequency of X-rays depends on the practitioner’s judgment of each person’s case based upon a number of factors.

SPECIALISTS DISCOUNTED BY 20%

Dental specialists, such as endodontists, oral and maxillofacial surgeons, orthodontists, pediatric dentists, and periodontists have agreed to reduce their normal fees by 20 percent for HIP Prime HMO members.

CHOOSING A DENTIST

You may visit any practitioner who participates in the Careington International network to receive benefits under the HIP Preventive Dental program. You don’t need a referral to see a network dentist, and you pay the discounted fee at the time you receive the dental service.

If you need help finding a participating dentist near you, have questions about your benefits, or want a schedule of services or a directory call Careington International at **1-877-548-4447**, Monday through Friday, from 8 am to 8 pm E.S.T. You can also visit their website at **Careington.com**. Enter your member information to get to the plan’s dental directory.
