

HOSPITAL-BASED PARTICIPATING PRACTITIONERS

This grid indicates whether a hospital has PEARs (Pathology, Emergency, Anesthesia and Radiology) providers in the EmblemHealth provider networks. This information will help you and your patients make informed decisions about hospital admittance. It will also reduce out-of-pocket costs often associated with out-of-network provider use, helping avoid surprise bills for members.

Note: If an “√” appears in a cell of the grid, the practitioners are network participants.
