

Quick Start Guide to Your Benefits

HMO Millennium

Welcome to the EmblemHealth HMO Millennium plan. We are here to help you get the most from your health care benefits. Here's what you need to know to get started:

Your Network and Your Doctor

You have in-network coverage only. As an HMO member, you must choose a primary care physician (PCP) who participates with the Millennium Network. This doctor will coordinate your care. Your benefits will be covered only if you see health care professionals in this network. If you see someone outside the network, you may have to pay the costs yourself. Emergency services that you receive in a hospital (e.g., hospital emergency room) are covered in- and out-of-network. A network is a group of health care professionals and facilities that contract with EmblemHealth. They provide covered products and services to members.

Be sure to check with your doctors to see if they participate in the EmblemHealth Millennium Network at all locations. You can use EmblemHealth's online directory to find a list of participating professionals. For more information about the network and your plan, see "How Your Coverage Works" in your Contract.

Choose a Network Doctor

- Go to emblemhealth.com/findadoctor.
- Choose your plan and click Search.
- Choose the doctor or type of doctor you're looking for, search by location or name, and click Search.
- You'll see a list of doctors. Read their profiles and find one who best meets your needs.

You can also request a paper directory by calling Customer Service (**800-447-8255**; TTY: **711**). Our hours are 8 am to 6 pm, Monday through Friday. A Customer Service representative will be happy to help.

Referrals

You need written or electronic permission from your PCP before receiving specialist care. This is called a referral. Specialists are doctors such as allergists and dermatologists who provide services other than primary care. You do not need a referral for the following services:

- Primary and preventive care.
- Preventive and primary obstetric and gynecologic care.
- Chiropractic services.
- Refractive eye exams from an optometrist. This is covered for dependents/children until the end of the month they turn 19.
- Outpatient mental health services.
- Diabetic eye exams from an ophthalmologist.

Need a Doctor? Consider AdvantageCare Physicians

AdvantageCare Physicians (ACPNY), part of the EmblemHealth family of companies, is a primary and specialty care practice that cares for the whole you. This means ACPNY doctors and providers consider the physical, mental, and lifestyle factors that affect your health.

With offices in all five boroughs (includes BronxDocs, an affiliate of ACPNY) and on Long Island, ACPNY offers convenient hours and same- and next-day appointments in many offices, along with related services, such as lab and radiology. Go to [acpny.com](https://www.acpny.com) to see a full list of services and locations.

Plus, ACPNY offers services that improve your care experience, including easy referrals. You’ll leave your office visit with a printed, approved referral in-hand. And, your referring specialist will already have it when you arrive for your appointment. It’s that easy.

To see a full listing of doctors and facilities in your network, go to “Find a Doctor” on [emblemhealth.com](https://www.emblemhealth.com).

Prior Approval

Some inpatient and outpatient services require prior approval by EmblemHealth before you receive them. Your network provider will contact EmblemHealth to take care of this for you. Examples of these services are: inpatient non-emergency procedures; outpatient surgery; home health care; hospice care; and outpatient physical, occupational and speech therapies. See your Contract for a full list of services that require prior approval.

Preventive Care

In-network preventive care services described in your Contract are covered in full and not subject to any cost-sharing when you use a Prime Network professional. These services include routine checkups, immunizations, gynecologic exams, mammograms, well-baby care, and prescription birth control for women.

Your Deductible

A deductible is the amount you pay before your plan starts to pay. Some services, like checkups, don’t require a deductible. For others, once you reach this amount, your plan shares the costs for your care. Your Schedule of Benefits has more details.

Keep Your Costs Down

Because out-of-network services (except emergency care) are not covered, seeing doctors and using hospitals only in the Millennium Network helps to keep your costs lower. If you need a procedure and it’s not an emergency, be sure the doctor or place where you are being treated has contacted us for approval first.

After you meet the deductible, you may have either a copay or coinsurance. A copay is the amount you pay for health services each time you use them. Coinsurance is the percentage you pay for health services, after your deductible, when your insurance plan begins to pay. These will depend on where you get care. Check your Schedule of Benefits for details.

What You Pay: Maximum

Copays, coinsurance, and deductibles go toward the maximum you pay. Once you reach this limit, your plan pays for in-network services in full.

Lab Tests: Quest Diagnostics

Quest Diagnostics is our preferred lab. If you have lab tests in your doctor’s office, make sure they are sent to Quest. If you need to go to Quest for tests, you can set up an appointment online at [questdiagnostics.com/appointment](https://www.questdiagnostics.com/appointment) or by calling **888-277-8772**. No appointment? Walk-ins are always welcome.
